DETAILED ACTION

Allowable Subject Matter

1. **Claims 1 – 20 are allowed.**
2. The following is an examiner's statement of reasons for allowance: prior art does not teach, or suggest, the claimed method, computer program product, apparatus, or timing analysis system for designing a circuit with **multiple conductors** that include: **selecting first and second operating points** corresponding to **first and second circuit applications**; **computing a factor** using the **performance difference** between circuit operation at the first and second operating points; producing **modified conductor resistance values** based on the **computed factor**, and performing **circuit timing analysis** at the first operating point with the modified conductor resistance values, thus producing **results indicating whether the design will correctly operate at the second operating point**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
